**QuestSoft® Recognized in *HousingWire*'s HW TECH100™ for  
Third Consecutive Year**

**LAGUNA HILLS, CALIF., March 07, 2016** – QuestSoft®, a provider of [automated mortgage compliance software](#), was named a recipient of *HousingWire*'s TECH100™ for the third consecutive year. The HW TECH100 highlights the housing market's most innovative technology and features industry-leading companies that deliver unique solutions within the U.S. mortgage industry.

“Being included in the HW TECH100 for a third year in a row further supports our on-going commitment to the mortgage industry to provide the most comprehensive, easy-to-use compliance platform available today,” said Leonard Ryan, founder and president of QuestSoft. “Our approach to innovation in order to best support our customers is of the highest priority. This award reaffirms to us that our solutions are continuing to positively impact the industry through seamless implementation and compliant technology.”

QuestSoft was selected for the third consecutive year and recognized for the ability of its flagship program, Compliance EAGLE, to exceed *HousingWire*'s criteria of innovation, which include elegant implementation, unique solution, fast growth, market influence and potential. Additionally, the automated compliance software provider was recognized as a 2016 recipient based on a series of key factors, which include a focus on technology spanning across the residential mortgage lending, residential mortgage servicing and residential mortgage investments or real estate space.

“The companies in the HW TECH100™ are providing innovative solutions to the traditionally hidebound mortgage finance industry,” said HousingWire Editor-in-Chief Jacob Gaffney. “In the face of rising costs to originate and service loans, a still-volatile housing market and multiplying

regulations, these innovations are crucial to the survival and profitability of those in our industry.”
