

# Compliance RELIEF - HMDA

The HMDA module in Compliance RELIEF is a new-and-improved version of the #1 HMDA submission software – HMDA RELIEF

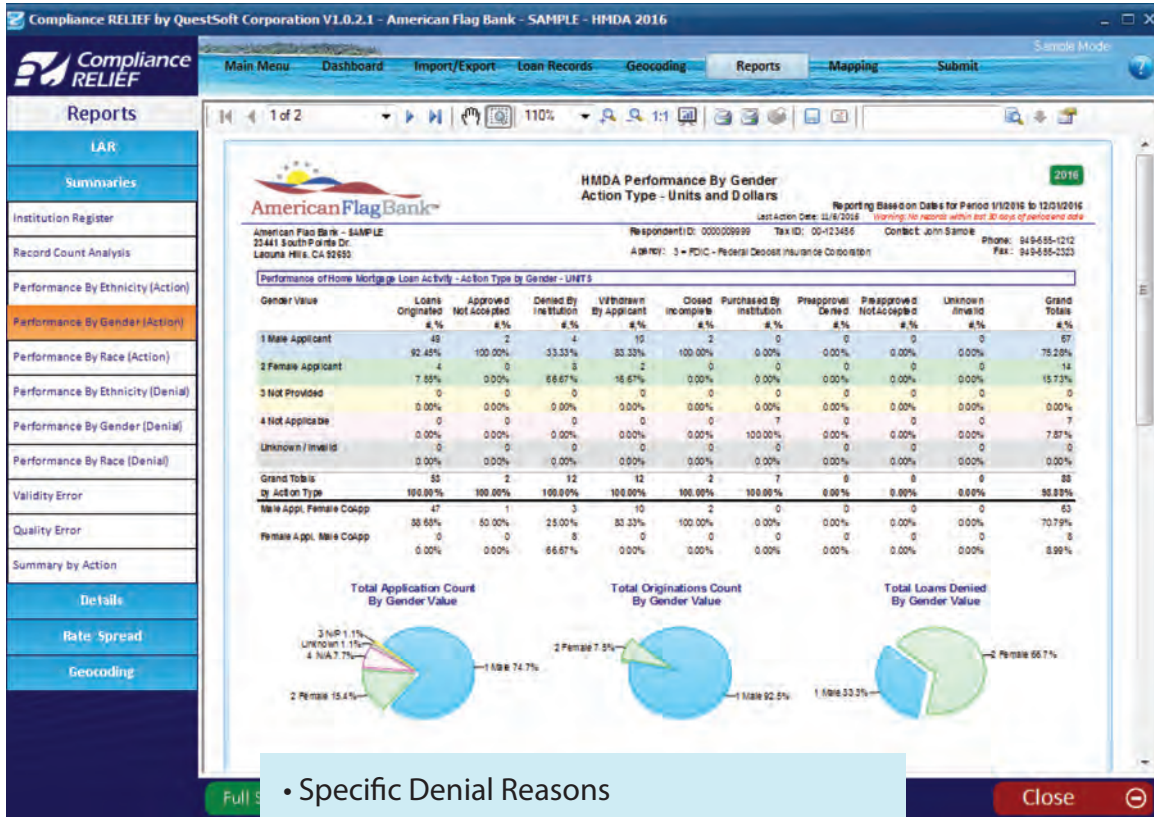

- Import records seamlessly from over 40 loan origination systems in just seconds
- Instantly view Quality and Validity error conditions via error detection lists
- Submit in your agency's preferred format: HUD, CFPB, OCC, FDIC, NCUA, FRB
- Requires no special training – but it's available if you want it

Free Training is available for customers – but the software is so easy, you might not need it!

- Reduces processing & submission time by 80-90%
- Automates geocoding processes (up to 10,000 records per minute)
- Corrects most common data entry errors via Group Edits function
- Automatically re-verifies census tracts for accuracy

# Compliance RELIEF - HMDA

- Stay in compliance with quarterly updates
- Includes advanced duplicate handling system
- Click on an error or statistic to display applicable loans
- Import from standard ASCII text and HMDA2 data files
- Electronically submits all current year LAR in regulator formats

- Specific Denial Reasons
