**QuestSoft® Founder and President Leonard Ryan Highlighted in  
*Mortgage Professional America's 2016 Hot 100 List***

**LAGUNA HILLS, CALIF., March 28, 2016** – QuestSoft, a provider of [automated mortgage compliance software](#), today announced founder and president Leonard Ryan's inclusion in this year's [Mortgage Professional America Hot 100 List](#). The annual list recognizes 100 individuals who have had a significant impact on the mortgage industry throughout the past year based on nominations submitted by their peers. This year's list includes many mortgage lending executives but less than ten executives directly associated with top industry vendors. It also includes notable names such as Janet Yellen, Richard Cordray and Jamie Dimon.

As founder and president of QuestSoft, Ryan was named to this year's Hot 100 List as a result of his nearly 25 years of leadership within the mortgage industry. Under his leadership, QuestSoft has successfully earned *Mortgage Technology's* Top 50 Service Provider Award every year since 2009 and was recently included as one of the top workplaces in Orange County. In addition to his work with QuestSoft, Ryan is an active member of the Mortgage Bankers Association and was named to *Mortgage Banking Magazine's* 2014 Tech All-Stars.

“Being recognized as part of this year's Hot 100 Listing is a great honor and further motivates me to maintain QuestSoft's upward momentum, encourage simplification of the mortgage process, and create solutions to ease the regulatory burden lenders are facing each day,” said Ryan. “QuestSoft has always approached business from an innovative standpoint in order to best meet the growing needs of our customers and we strive to continue doing so with each new product and service offering we introduce.”

**About QuestSoft®**

Laguna Hills, Calif.-based QuestSoft is a leading provider of comprehensive compliance software and services for the mortgage, banking and credit union industries. QuestSoft combines 20+ years of mortgage regulatory, CRA and Fair Lending compliance analytics, data management and software design expertise with best-in-class customer service to consistently improve client compliance accuracy and facilitate smoother regulatory audits. QuestSoft products, interfaced with over 40 LOS providers, enable more than 2,200 clients to simplify and speed the collection, analysis, compilation and reporting of key lending regulatory report data.
